

ABSTRACT AMENDMENT

Please amend the abstract as follows:

The invention relates to an optical connector system ~~(1) comprising~~ including a backpanel ~~(2)~~ and at least one substrate ~~(3)~~, said substrate ~~(3)~~ having at least one substrate housing assembly ~~(30)~~ and said backpanel ~~(2)~~ having at least one backpanel housing assembly ~~(20)~~ for establishing an optical interface. The substrate housing assembly ~~(30)~~ is attached to said substrate ~~(3)~~ and ~~comprises~~ includes a further housing ~~(34)~~ slidably mounted in a z-direction of said substrate housing assembly ~~(30)~~. Accordingly no residual forces are exerted on the backpanel ~~(2)~~ after establishment of the optical interface.
